

# Woodland Primary

## Art & Design

### Intent

- To know that everyone's art journey is unique.
- To become more skilful in drawing, painting, sculpture and other visual art forms including craft and design techniques.
- To encourage pupils to produce creative work which explores, records and reflects on ideas and experiences in their own and others' lives.
- To learn and know about a range of artists, craft makers and designers and understanding historical and cultural development of their art form.
- To realise the relevance of art, craft and design in our modern culture whilst also generating a love of the subject.
- To evaluate and analyse their own and others' creative work using the language of art, craft and design.

### Implementation

- Thorough exploration of artists, ideas and skills.
- An understanding of an artist's purpose and how they use the formal elements of art to communicate their ideas to the viewer.
- Through research, pupils should develop their ideas independently.
- Understanding of the formal elements through experience with artistic conventions and experimentation.

### Impact

- To develop pupil's capacity to learn and understand by observing the world in which they live in.
- To use assessment and feedback to provide information in relation to attainment and as a means for pupils to reflect on their own progress.
- To link aspects of the formal elements to pupil outcomes - formal elements are the vein that runs through the scheme of work.

### Global learning statement

- We encourage creative, critical and open-minded thinkers who have the courage and confidence to discover and contribute to the world around them.
